TB / NAIT POLICY- All cattle, yearlings and over, entered for showing must be from a TB accredited and Brucellosis free herd - All animals three months and over must be TB tested and

a copy of the test certificate must accompany the entry form. No animal from a herd or farm under movement control for TB or Brucellosis or distance control place notice, and cattle awaiting a comparative cervical test result, and any replacement stock associated with such animals shall be exhibited at an A & P Show. (A herd consists of all replacement animals grazed off the farm regardless of how many mobs they are farmed in). The RAS requires we state the following: All animals entered for showing or exhibiting must be from a current TB Clear Status Herd. A copy of the current TB test certificate must be attached to entry forms. The Association must be notified at the time of entry of any testing to be carried out after the closing date of entries or of any potential TB issues that may arise after entries have been submitted. Owners entering cattle must sign any declaration printed on the entry form. There are two documents required. First document is a TB Test Certificate. For animals from a Declared Movement Control Area – all animals aged three months or older are to be TB tested and have a clear test within 60 days prior to being moved to the Show. All other animals must be from a herd that is up to date with its current routine TB testing requirements. The second document is a TB Animal Status Declaration Card. This is a legal requirement for all animals being moved. All animals entered must be accompanied in transit by a signed and dated TB Animal Status Declaration Card showing a TB Clear status in accordance with present legislation. Animal individual numbers must be included on the TB test sheet. These cards may be inspected at the unloading area. For cattle being moved: For cattle being moved: A NAIT approved RFID tag is mandatory for all movements of cattle, including day old calves. NAIT approved RFID cattle tags are white only. The exhibitor is responsible for : (i) Ensuring all stock have completed all TB testing requirements as per Animal Health Board testing regulations. (ii) Ensuring all stock are identified in accordance with current legal requirements (including NAIT). (iii) In order to meet NAIT obligations, stock present must be: NAIT tagged and registered AND recorded in movements by the owners of stock to Mackenzie A&P Showgrounds, NAIT number 455732- with the inclusion of dates to/from the event.

Minimising the risks from Mycoplasma bovis at cattle shows and events

The risk from Mycoplasma bovis at shows and events is low. All the animals on the infected places and the farm group's farms are under movement control and cannot be moved without permission from MPI. The infection is spread by direct and prolonged animal contact, despite intensive testing no infection across boundaries has been detected.

There are some simple actions that can minimise the risks from Mycoplasma bovis.

What can exhibitors do?

Exhibitors should ensure only healthy cattle take part in shows. In particular symptoms of Mycoplasma bovis include:- unusual mastitis in cattle that doesn't respond to treatment, - arthritis in cows and calves, - late-term abortion,- pneumonia in calves. Farmers should practice good on-farm biosecurity and clean and disinfect outer wear, boots and equipment before attending a show. On their return they should again clean and disinfect

before taking outer wear, boots and equipment back onto the farm. For more information refer to the guidance on the MPI website. All exhibitors must have tagged and registered their cattle with NAIT. All exhibitors must keep their NAIT movements' up-to-date and accurate and record movement to and from the event. Refer to NAIT guidance - <http://nait.co.nz/manage-animals/sending/events/recording-event-movements/>.

What can show organisers do?

Ensure that exhibitors are aware of the farm biosecurity and hygiene recommendations and their NAIT obligations. Animals without a NAIT tag should be denied entry to the show in accordance with Royal Agricultural Society rules and non-compliance should be reported to MPI. Ensure stalls are cleaned out before you put cattle in them. If possible, don't use the same stalls for cattle belonging to different exhibitors. Minimise contact between cattle during the show. Provide hand sanitiser for cattle judges as they move between animals.
